Portfolio: [add Behance / Figma / website link] | LinkedIn: [add link]

SUMMARY

Entry-level UI/UX Designer with a B.Sc and M.Sc in Mathematics, bringing analytical thinking and structured problem-solving to design. Skilled in Figma, user flows, wireframing, prototyping and responsive UI design, with a focus on clean, intuitive and user-friendly digital experiences. Seeking an entry-level UI/UX role to design products that solve real user problems.

PROJECT

Delivery App UI/UX Case Study*Figma*

UI/UX Design Project | Case study link: [add link]

- Identified user pain points around delayed deliveries and unclear delivery timelines, and defined them as the core design problem.
- Mapped the end-to-end user flow and built wireframes to simplify the order tracking experience.

- Designed high-fidelity UI screens showing clear delivery status and estimated delivery time at a glance.
- Built an interactive Figma prototype to demonstrate the full tracking journey.

SKILLS

Design Tools: Figma

UX: User Research, User Flows, Wireframing, Prototyping

UI: Responsive Design, Design Systems, Typography, Color Theory
